RMG Polyvinyl India Limited at a glance

RMG is India's leading manufacturer of vinyl flooring under the brand **WONDERFLOOR** in India. We have a robust dealer/distributor network PAN India and we are **exporting our goods to 40+ countries.**

Our manufacturing units are equipped with modern machines and constant research and development allows us to supply superior-quality products with high-efficiency rates.

Our company is the recipient of **TOP PLASTICS EXPORTER Award** from Govt. of India since the last 11 years and our manufacturing units produce in excess of **30 Million sqmtr of flooring annually.**

Our Floor-coverings meet international ASTM & BS standards with test certificates from reputed European & American Labs.

Our products are installed at most of the prestigious institutions in India which makes Wonderfloor the leading brand in India. We also possess Green certifications, Fire & Smoke certifications, abrasion resistance, etc from major laboratories for our products. With strong moral values, we at RMG believe in being reliable and trusted suppliers and having concrete business relations with our customers, with your support we aim to grow mutually with each passing day.

Apart from global flooring exhibitions that we take part in, you will always find us at **DOMOTEX HANNOVER** each year during the month of January, we would be glad to serve you and showcase our products if you are visiting the fair next year.

Our products

Tiles are also available. The floorings are also having PUR surface treatment for scratch resistance & low maintenance.

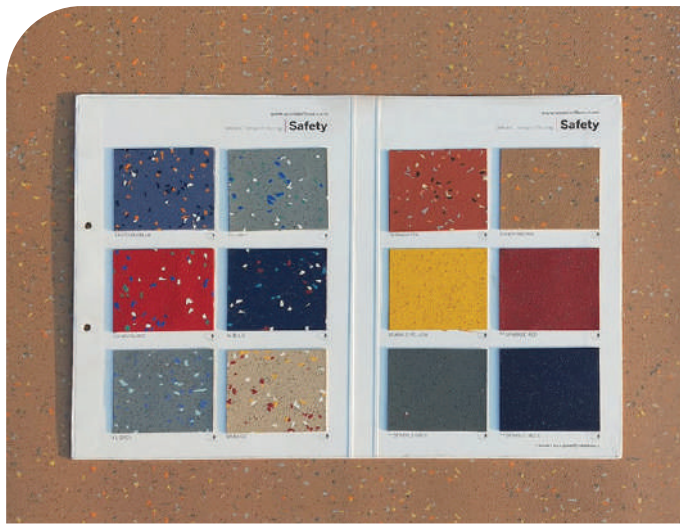

Durofloor: These are heavy-duty flooring rolls with marbling pattern and are suitable for projects where commercially priced products are needed like Prefabricated Building Sector/Porta Cabins & Low-Cost Housing Projects. Thickness available in 1mm to 3mm and these are produced in rolls & tiles.

Sigma Commercial: These are heavy-duty floorings in pastel shades with a smooth emboss on the top surface. They are of similar quality like Robust as mentioned above.

Accessories: A wide range of installation accessories like Skirtings, Covings, Cappings, Stair Nosing, Welding cords are produced in matching colors and supplied along with the floorings.

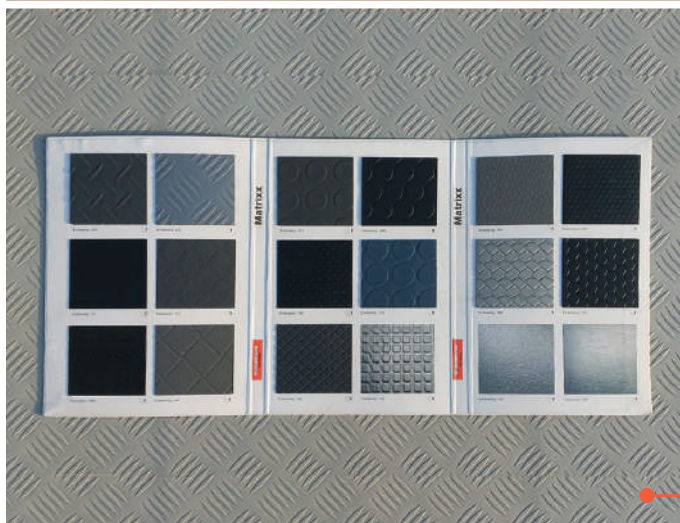

All above floorings are available in plain colors also without marbling if a "Non-Directional" flooring is required.

Transport Flooring

Safety Flooring: These are Heavy duty Antislip flooring rolls with Non-Directional chip pattern & silicon carbide granules on the top surface. They impart a high degree of slip resistance and mostly used in Buses & Train and also in wet areas. WONDERFLOOR's Safety is OEM approved with leading Bus & Rail coach manufactures in India & abroad and are produced with Low Smoke & Fire retardant properties for OEM. These are produced in rolls from 1mm to 3mm thickness and upto 2 meters width.

Antiskid / Embossed Flooring: These are Antislip Flooring rolls with deep embossing like Coin, Chequer, etc on the top surface. They are suitable for Buses, Trains and all types of heavy-duty use and areas where anti skid properties are required like Garages, Stair-Case, Ramps, etc. These are produced in rolls from 1mm to 3mm thickness and upto 2 meters width.

Multi- Activity flooring

Braavo (Sports/Fitness): These are Cushioned Flooring rolls with GFT & PUR surface treatment. These Products are suitable for sports like Badminton, Table Tennis, etc and for multi activity areas like Gymnasiums, school play rooms, etc. These are suitable for heavy duty use and are surface treated with PUR for easy maintenance. These are produced in rolls of 2 meters width and in thickness of 4.50mm & 6.50mm.

Krayons (Play Schools flooring): These are flooring rolls with GFT & PUR surface treatment available in vibrant & bright colours for use in play schools or interiors where floorings need to be brightened up. They are very suitable for use in Children rooms & play areas as well. These are produced in 2mm thickness and in rolls of 2 meters width.

Healthcare Flooring

Sigma & Wallspro: Sigma is a very high quality, homogeneous construction (Laminated Multi layers) flooring in rolls, heavy duty fully flexible marbled pattern PVC floor covering having anti fungal properties. Wallspro are wall claddings mostly used in healthcare segment. These products are having PUR Surface treatment and are suitable for use in Hospitals, Clinics, Quarantine & Isolation centers and even in educational institutions where maintaining clean walls are a challenge. Floorings are produced in rolls in 1.50 mm to 3.00mm thickness. Widths are normally 1.50 meters. Wall cladding is produced in 1.00mm & 1.20mm thickness in 2 meters width.

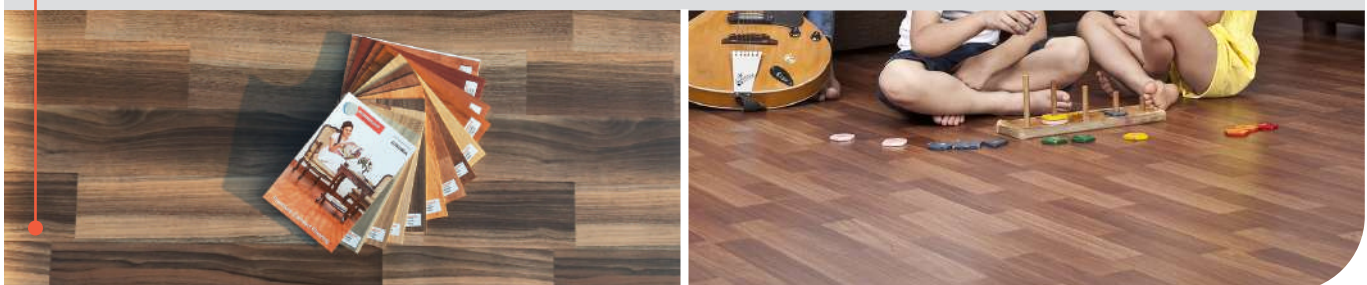

● **Trendo:** These are available in attractive Non Directional chip design pattern and in wooden patterns, impregnated with GFT & surface treated with PUR. Suitable for healthcare and equipped with Anti Microbial properties, the latest trend in comfort, sound & vibration absorption, pleasing shades and a very high abrasion resistance are all salient features of Trendo. These are produced in rolls of 2 meters width and thickness on 2mm.

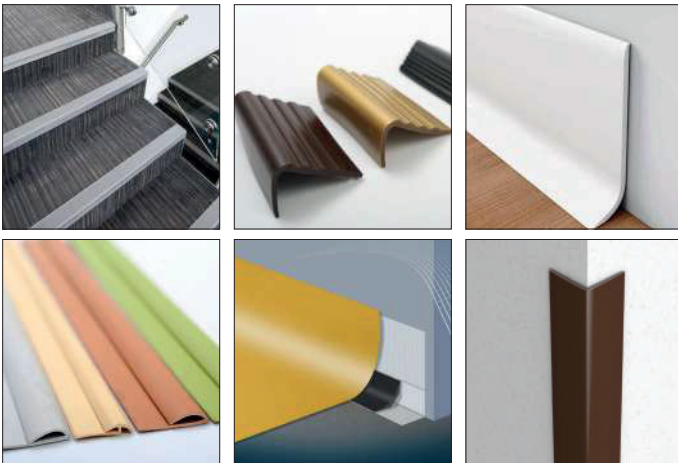

Semi commercial flooring

Meteor, Ornate, Luxuria, Antique, Hi-Tech & Duratek: At WONDERFLOOR a wide range of floorings in Wooden & Stone designs are produced for Semi Commercial usage. They are embossed with wood grain or stone or smooth finish to provide a natural look. Some qualities are with GFT & PUR and are with a compact cushion or a normal cushion base suitable for a luxurious feel & experience whereas other qualities which are suitable to match tight budget requirements are also available in various thicknesses ranging from 1.0mm to 1.50mm and widths of 2.00 meters. The semi-commercial range of floorings are suitable for areas like Offices, Porta Cabins, Shops, Eateries, Residential, etc.

● **Printed Residential Flooring:** Rangolie, Uttsav, Galaxy, GDP & Eco-Tech: Purely for use in affordable housings, homes & residences with low traffic, a range of PVC Printed Floor Covering in rolls are produced in thicknesses from 0.42mm to 0.85mm and widths upto 2.00 meters. These are available in Geometrical, wooden, stone or floral patterns.

Installation accessories

Wonderfloor provides complete range of accessories for installation of their flooring products

Hot Air Welding Gun: Welding gun flows a hot gas (air) to melt welding rods.

We supply welding with its complete accessories like Grooving knife (to make "V" shaped groove between two edges of floors) and Spatula (required to remove access welding over the floor surface)

PVC Welding Cords: PVC welding cords are used for smooth installation of floor covering. Wonderfloor welding rods are available in a range of colours designed to blend with the floor coverings.

PVC Stair Nosing: PVC Stair Nosing help to reduce accidents on stairs by offering increased slip- resistance.

PVC Skirting: Skirting can help define where the floor ends and the wall begins whilst providing a neat, attractive join between the wall and the floor.

PVC Capping: PVC Capping strip gives a neat finish to the installation and ensures a continuous, sealed surface.

PVC Coving: These tough and durable covings give protection to the wall decorations at floor level.

PVC Corner Guard: PVC corner guards protect exposed and vulnerable corners against the roughest treatment.
